

# How Our Perfect Earth Came to Be

Hi, I'm Earth. I am just right!

I am close to the Sun, not too hot, not too cold.

I have water. Water is good for life.

I have air. We breathe air.

I felt shy when I was very hot.

I cooled down. I felt happy.

I have gravity. Gravity holds things close.

I have a magnetic field. It keeps me safe.

I have soil and minerals. Plants like them.

I have sunlight. It gives energy.

I felt special when life began.

Life started in water. It grew and grew.

I have animals and plants. They live together.

I am proud. I have many climates.

I am Earth. I am just right!

Thank you for visiting me!

# Vocabulary

⇒ ■ Vocabulary:
