

I like going to the mall

**Mall is a place where we can
get things we need**

■

At the mall there are lots of shops I can go to

■

I stay close to an adult at the mall, they can take me to the different shops I want to go to

I can go to the shop and get things I want but I need an adult to get those things for me

To take things from the shop we have to give money, this is called buying, an adult can help me buy things

If I want to go in a store, I can ask by saying “can I go in that store?” I shouldn't go inside the store alone

Staying with an adult keeps me safe

**When I want to take something,
I can tell the adult with me that
I would like to buy that thing**

**I can't take anything from the
mall without asking**

**When I stay with an adult and
ask for things correctly, I get
to have lots of fun at the mall**
