

Today is special because it's my birthday, and I feel very excited!

I jumped out of bed and did my happy dance

At breakfast, I saw a big stack of pancakes with a candle on top

I told Mom and Dad how happy and thankful I was

Mom said it's good to express our excitement and share our joy

At school, my friends sang 'Happy Birthday' to me, which made me feel special

**I shared my favorite stickers
with my classmates to
celebrate**

**My teacher let me be the line
leader, which was exciting**

After school, I had a small party with games and treats

I laughed and played with my friends, feeling joyful all day

At bedtime, I felt grateful for everyone who made my day special

I learned that sharing excitement makes happy moments even better
