

I have two siblings, a brother named Alex and a sister named Mia

Alex is older and likes to teach me how to play different games

Mia is younger. We love drawing pictures together

Sometimes we argue, like when we can't decide what game to play

**But Mom helps us find a way
to play together happily**

**Alex teaches me how to ride
my bike. He is very patient**

Mia and I like to make up stories and act them out

We celebrate each other's birthdays with special surprises

When one of us is sad, we try to cheer each other up

I teach Mia how to do her math homework

We all have different likes and dislikes, but we love each other

I feel lucky to have my brother and sister. We are a great team
