

Helping Hands: The Housekeeping Friend

I see a big bedsheet on my bed. It looks messy. I want to help make it neat.

I spread the bedsheet with my hands.
It feels soft and smooth.

I find the pillow. It needs a cover. I
slide it in like a hug.

I see another pillow. I put on its cover too. Now they match.

I fold the extra bedsheet. I make it small. It sits nicely in the drawer.

I look around the room. I see toys on the floor. I pick them up and put them away.

I feel happy about my tidy room. It looks nice and cozy now.

Helping hands make my room neat. I did it, and it feels good!
